

TOOLBOX TALK 7 – LOTO Safety

Key Points

- Identify all energy sources.
 - Disconnect, lock, tag, and verify zero energy.
 - Never remove another person's lock.
-

Expanded Talking Script

“LOTO ensures no one gets shocked, burned, or killed during maintenance. Each lock is tied to a person's life. Only the person who applied the lock may remove it.”

Scenario

Scenario:

A foreman says “remove that lock, the guy went home already.”

Ask:

- What should you do?
 - Why is it never acceptable to remove someone else's lock?
-

Engagement Questions

- “What are some hidden sources of energy we often forget?”
- “What tool do we use to verify zero energy?”
