

TOOLBOX TALK 10 – Ladder & Scaffold Safety

Key Points

- 4:1 ladder setup.
 - Maintain 3 points of contact.
 - Never carry tools while climbing.
-

Scenario

Scenario:

A worker climbs a ladder with a tool in hand because the tool belt is “in the truck.”

Ask:

“What’s the safer alternative?”

Engagement Questions

- “What’s the wrong way to reach sideways on a ladder?”
- “Is our scaffold today fully guarded?”
